

CURRY GLASSELL

Meet Curry Glassell

AUTHOR | PHILANTHROPIST | RIGHT RICHES FOR YOU FACILITATOR

Curry Glassell is a dynamic producer, author, speaker, philanthropist, facilitator and art-loving mother of two, with a rare personal story and a unique perspective on wealth, happiness and financial empowerment.

Raised in a billionaire home, Curry's early life was dominated by the contrasting elements of extreme luxury, and a sense of complete financial disempowerment. At the age of 40, she found herself newly divorced, with two sons to raise and a \$2 million debt. It was then that Curry finally grasped the true secrets to creating personal wealth – courage, honesty and a willingness to invite in new possibilities.

With nothing to rely upon other than her own resilience and determination, Curry changed her lifestyle, spending habits and relationship with money. Using a set of simple, yet powerful, tools she swiftly climbed out of debt and ignorance, and into financial and emotional prosperity.

As a *Right Riches for You* facilitator, assisting people around America and the world, Curry draws upon her personal experience with great wealth, huge debt and joyful wealth creation to help others re-create their financial story and realize what's actually out there for them in the world, if they let it in.

Her experiences, living in Texas, Manhattan and Boston have instilled in her a progressive worldview and a supercharged passion for conscious change and personal empowerment. She has an insatiable love of fine art and antiques (she once opened her own art gallery) and is a keen investor and philanthropist. www.curryglassell.com.

RAISED IGNORANT: DESTINED FOR SUCCESS

By Curry Glassell

In *Raised Ignorant: Destined for Success*, Curry shares extensive and intimate details of her life: growing up as a billionaire's daughter, struggling with financial ignorance as an adult, unconsciously creating a life of debt, and the climactic awakening that occurred as a newly-divorced 40-year-old.

Honest and revealing, *Raised Ignorant: Destined for Success* sheds light on some of the most damaging habits and mindsets that plague modern society and offers clear and simple tools to help the reader acknowledge their own unconscious blocks, and create a new - and prosperous - relationship with money.

Due for release in late 2017.
